Qualification Data

Miller-Mize Precast, Inc., located in Columbus, Georgia, has been in operation since 1969. We average a workforce of (32) thirty-two employees and an annual sales volume of \$2.5 to \$3.5 million dollars.

Miller-Mize Precast, Inc. has been active members of the Architectural Precast Association (APA) since 1974.

Our products are manufactured under Spec. Sections 03450 (Architectural Precast) wet cast and 04720 (Architectural Cast Stone) dry-tamp methods. The PCI (Precast Concrete Institute) Manual 117; "Manual for Quality Control for Plants and Production of Architectural Precast Concrete Products," is used for our Quality Control guidelines.

Our Quality Control Department has developed the capabilities of utilizing both dry-tamp and wet-cast products to achieve the same textures and colors providing efficient, competitive, products and budgets.

Our specialty type projects include but are not limited to; Courthouses, Libraries, Hospitals, Universities, and Special Government Projects.

Attached is a list of Projects of substantial size in which we either completed or are currently working on at the present.

Please feel free to call if you have any questions or comments. Our staff will be more than willing to provide you any additional information available.

We thank you for the opportunity to review our credentials and look forward to working with you on upcoming projects.

Sincerely,

Miller-Mize Precast, Inc.
